

# Professional graded LED strips with high quality light output

## 高品质光色，专业等级灯条

High performance single color LED strips are made with constant current ICs integrated, which would make LEDs without variance of brightness due to the voltage drop along the strip and long lasting life.

With 3M self-adhesive tapes at back for easy fixing. IP67 LED flex ideal to be used for architectural features including stairs, bar edging, floor marking, signage, marine or outdoor lighting.

This strip has cut points every 100mm, 24V DC constant voltage LED Driver is required, optional triac dimmable constant voltage LED driver, Reel length 5m.

高性能单色软灯条，内置恒流IC控制芯片，LED长寿命，无长串接后电压压降衰减造成光色不均匀现象。

背贴3M高性能自粘双面胶带，任意方便贴装。PU全包胶IP67防水工艺，可运用各种建筑特征照明，包括楼梯、酒吧、楼层标记、广告招牌、船舶等其他户外照明。

软灯条每100mm可剪切，24V直流恒压驱动电源，可匹配可控硅恒压电源实现调光控制。每卷5米包装。

Power/Meter 功率/米	CRI 显色指数	Efficacy 光效	Lumens/Meter 流明/米	CCT 色温	Model No. 型号
9.6W	82	100lm/W	960lm	3600K	C5-11-28-3-60-F10-67

Package / 包装: 5m/Reel      Dimensions / 尺寸: 5000x12x4mm
